To recover emails, contacts, and calendar items use Time Machine to restore a backup of your Office 2011 Identities folder.. Scroll down the list, click File invisible, and then click OK Sometimes users are not able to find the email messages and contacts in Mac Outlook 2011.. For information on how to use Time Machine, see how to restore data from Time Machine backups.. The email messages of Outlook disappear automatically To recover the email files and contacts user can use the Time Machine backup of the Office 2011 identities folder.. Or, press Command + F • In the Search window, click Any, and then select Others.. Tip 'File invisible' is approximately in the middle of the list • Click the Visible button next to File Visibility, and then select Visible and Invisible Items.. If there's no backup, we can try something different Let's see if another identity has the missing data.. • Make the search results window larger, and then scroll through the results to locate Database.. If the identity that was moved was the identity that contains your data, follow these steps: • On the Desktop, click File, and then click Find.
